Continuation Sheet

Specifically, Applicants will point out that the claims require a selection by an information selecting section or a "selecting" step. Motoyama discusses customizing a report by customizing the information "and/or" the format. This does not teach that part of a report is sent as attached data and part of the report is sent as mail data -- Applicants' claimed "selecting."

Applicants will also discuss the Examiner's rejection of claims 5, 6, 8 and 35, noting that in each instance the cited teaching of Motoyama differ from what is taught and claimed by applicant.

Applicants will also discuss the Section 112 rejection of claims 4 and 34.
